

EARTHQUAKE/ EMERGENCY SURVIVAL KIT

Due to the possibility of an emergency or disaster during school hours we must be prepared. Here at Happy Minds Kids Academy, your child's welfare is important and in the event of an emergency we must be prepared. Should such a disaster occur, there would be a possibility that your child would need to remain at school through the dinner hour, or possibly overnight. It would be necessary, therefore, to have some food and drink to sustain them during this time.

In order to care for all our children in case of such a disaster, our facility is in the process of obtaining Emergency Survival Kits. These kits are designed to contain everything students and administrators need to survive for 3 days when confronted with an emergency disaster situation at school. This kit provides both piece-of-mind and safety at school.

What's great about this kit is that it contains a 72-hour survival supply for 1 person including US Coast Guard Approved 5-year shelf-life food and water. (Many store-bought items such as canned food and bottled water don't store safely for longer than 6 months; and even less when exposed to extreme temperatures.)

Cost of each kit - \$ 15.00

.....
Please return this portion along with \$ 15.00
