Spring is here and we are almost coming to the end of the school year. We will continue to work on our color, shape and letter, and nursery rhyme. We will also read our favorite book, 'The Very Hungry Caterpillar' as our kiddos are fascinated by the many caterpillars and butterflies we now observe around our playground. Rainbow Room wishes our beautiful mother's a very happy Mother's Day.

We also want to thank our wonderful parents for their continued support of our class room.

Sunshine Room

April showers bring May flowers. We will be discussing all the changes that come in spring. The books that we will be introducing this month include "5 Bizzy Honeybees", "The Seed", and more. Just as spring has sprung, our kiddos have blossomed too. They will continue their alphabet, We are looking forward to completing our alphabet, numbers, sensory activities as well as sing choreographed songs.

In honor of our amazing moms, the children will be working on gifts prepared with much love for you.

Lovingly,

- Ms. Diane

Star Room

Hello parents! The kids have learned so much this month. They're getting so much better at cutting activities. Most of our kids have been able to open their own lids, cereal bars and apple sauce pouches!! Such a proud moment seeing our kids be more independent.

We're also super excited for our Mother's day gathering!! The kids are excited to show their mommies the cards and gifts they made :) We are looking forward to our open house this month and super happy for you guys to see what the kids have been working on throughout the year :) We are finishing up our alphabet as we will be working on "X", "Y", and "Z" this month.

As always, if you have any questions about your child, we'll be more than happy to help ☺

- Ms. Stephanie & Ms. Israa

Pre-Kindergarten

As we head into May, we will continue to observe our caterpillars waiting patiently for the butterflies to emerge!! The children enjoyed planting their seeds after learning about the parts of a plant. They were excited to watch them grow! In Math, children will be introduced to Place Value of 10's, helping them understand formations of double-digit numbers 11 - 20. This will enable them to learn simple additions and subtractions. We will continue to practice counting in 5's and 10's along with graphs, sequencing and seriating skills.

Opposites have been introduced in language. We will continue with position and rhyming words. Sight words have been introduced and kids enjoy making their own sentences. Children have learned vocabulary with beginning phonic sounds for each alphabet throughout the year. They will practice it while learning rhyming words, ending with sounds, such as '_at', '_ap', '_et', etc.

They are having a blast practicing for the graduation! Please be on the lookout for information on the dress code for the performances. As always, thank you for all your support.

- Ms. Rashmi & Ms. Tiana
